Web Developer | Researcher

Halishahar, Chattogram, Bangladesh | ayeshahasan0907@gmail.com | +880 1644-611916 LinkedIn | GitHub

WORK EXPERIENCE

Make Me Pretty 2021 – 2025
Co-Founder *E-Commerce*
- Co-founded the e-commerce platform providing authentic skincare products.
- Managed daily operations, strategic marketing, and maintained customer relations to ensure business growth.

International Islamic University Chittagong (IIUC) 2025
Teaching Assistant (TA) *Chittagong, Bangladesh*
- Provided academic support for *Data Structures (CSE-2333)*, Computer Graphics Lab(CSE-4742), and Software Engineering Lab(CSE-3642), assisting students with coursework, lab sessions, and engagement.
- Assisted in grading, classroom management, and fostering an interactive learning environment.

IIUC Computer Club 2025
Assistant Photographer *Chittagong, Bangladesh*
- Covered club events and workshops, managing photography and visual documentation.

Youth's Voice 2025
Volunteer *Bangladesh*
- Supported community engagement and youth empowerment initiatives.
- Helped organize events and collaborated on various youth-driven projects.

EDUCATION

B. Sc. in Computer Science and Engineering 2022 – Present
International Islamic University Chittagong, Bangladesh **CGPA: 3.85 out of 4.00**

Higher Secondary Certificate 2018
Cambrian College, Chittagong **GPA: 5.00 out of 5.00**

Secondary School Certificate 2018
Hatey Khari School And College, Chittagong **GPA: 4.83 out of 5.00**

PUBLICATIONS

IoT Enabled Driver Health Checking and Condition Assessment Using Machine Learning
Md. Sadman Hasan, Mohammed Jayed, Bibi Ayesha Akhter
International Conference on Intelligent Data Analysis and Applications (IDAA), 2025 | Certificate

An Efficient NFC Blockchain Model For Detecting Counterfeit And Expired Products
Md. Sadman Hasan, Bibi Ayesha Akhter, Fahmida Yasmin, Zannatun Naim, Mr. Arafath Al Fahim
International Conference on Intelligent Data Analysis and Applications (IDAA), 2025 | Certificate

Comparative Deep Learning Analysis of CNN, Transformer and Hybrid Architectures for Ovarian Condition Detection
Shadman Yaser, Baizid Kamruzzaman, Baizid MD Ashadzzaman, Mohammed Jayed, Md. Sadman Hasan, Bibi Ayesha Akhter
28th International Conference on Computer and Information Technology (ICCIT), IEEE, 2025 | Certificate

PROJECTS

NFC Based Product Authentication System
- Developed a product verification system using NFC tags to ensure authenticity using HTML, Bootstrap, PHP, and IoT integration. | View on GitHub

Driver Health Checking & Condition Assessment

- Designed an IoT and Machine Learning-based system to monitor driver vital signs and assess physical condition in real-time to prevent accidents. | View on GitHub

Network Traffic Classification

- Implemented Machine Learning algorithms to analyze and classify network traffic packets for better security and bandwidth management. | View on GitHub

Air Traffic Controller OS Simulator

- Developed an Operating System simulator demonstrating process scheduling and resource management within an Air Traffic Control environment. | View on GitHub

A Beautiful Life Journey (Computer Graphics)

- Created a visual storytelling project using Computer Graphics (OpenGL/C++) algorithms to depict different stages of life through animation. | View on GitHub

Opti-Home Automation System

- Built a smart home automation system using IoT sensors and microcontrollers for remote device control and energy efficiency. | View on GitHub

Accidental Injury Prediction

- Implemented machine learning algorithms to predict accidental injuries and severity by analyzing data patterns to enhance safety measures. | View on GitHub

Make Me Pretty - MERN Stack E-commerce Website

- A full-stack e-commerce website for skincare, body care, hair care, and makeup products. It is built with the MERN stack and supports three user roles: Customer, Admin, and Delivery Partner. | View on GitHub | Live Website

SKILLS

- **Full-Stack Web Development:** Experienced in developing full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), along with HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and Python.
- **Machine Learning & AI:** Proficient in developing predictive models, semantic search algorithms.
- **IoT (Internet of Things):** Skilled in integrating sensors and microcontrollers to build automated smart systems.
- **Research Skill:** Demonstrated ability in academic writing, systematic reviews, and publishing.
- **Digital Marketing:** Experienced in managing online business operations, social media strategies, and customer engagement.
- **Management & Team Work:** Proven track record of leading teams, mentoring students, and coordinating event logistics.
- **Teaching & Presentation:** Effective in delivering technical lectures, facilitating lab sessions, and public speaking.
- **Programming Languages:** Strong command over C, C++, Python, Java, and JavaScript for diverse software solutions.
